PROJECTS

Family Travel Blog

Completed January 2023

porteradventurejournal.org LOGIN email: *guest* password: *guest*

Frontend -> github.com/cporter1/travel-blog-front API -> github.com/cporter1/travel-blog-back

- Blog for my big family to help keep up with each other in one place while traveling
- Users can upload images and paragraphs in posts on their trip specific blog
- **React** frontend, **Nginx** reverse proxy, **Node** API, and **PostgreSQL** database
- Reverse proxy and restful API hosted on **AWS EC2**, **S3 bucket** for images

Athlete Injury Hub

Started Fall 2022

- Building a communication and record keeping solution for athletes, doctors, and sports' trainers
- Unique challenges include HIPAA compliance and the handling of sensitive data
- Using **tRPC**, **Prisma**, and **MySQL** stack for typesafe API requests simplifying API development
- Uses **Stateful user authentication** trading speed for security, stateful has one more DB request

Knowledge Graph Web App

Completed Fall 2020

- Worked with a **scrum** team to develop solutions to analyzing associations from data sets
- Team meetly regularly to organize user stories, sprints, and retrospectives
- Data sets were processed by NLP service and displayed in a knowledge graph
- Product owner defined user stories to satisfy acceptance criteria

WORK EXPERIENCE

Palo Alto Soccer Club Coach

2021 - Current

- Involves communicating with parents, planning practices, and coordinating with league officials
- Lead a team of volunteers to coordinate schedules to prevent conflicts between 4 different parties

UC Santa Cruz Soccer Coach

2019 - 2021

- Involved planning and leading high intensity training sessions in results focused environment
- Scouted prospective players and provided in depth analysis of games and practices
